

UOP Inspection Services Inspector CV

PRINCE GODWILL D. FOMUSOH

Honeywell UOP LLC, 25 East Algonquin Road, Des Plaines, IL
 60017-5017 UOP Inspection Services Senior inspector since 2010
 Working in the Petrochemical Mechanical Inspection Industry since 1996.

<p>Qualification Certifications</p>	<p>American Petroleum Institute, API pressure vessel (510) / piping (570). Have been certify to ASNT/SNT - TC-1A - Level II - Liquid Penetrant, Magnetic Particle, Ultrasonic Thickness, and shear wave.</p> <ul style="list-style-type: none"> • Six sigma green belt with UOP Honeywell. • Holder of a transportation workers identification card (TWIC) Card. • Graduate from National Polytechnic College of Oceaneering and Engineering Wilmington California Associate Degree in Environmental, Health & Safety. • High school diploma, .the Lincoln high school online (Houston Texas). • Associate Degree in Under Water Marine Technology and Non-Destructive Testing. • General Certificate of Education/Advanced Level/Facility Mechanical Integrity training Cameroon - West Africa. • (CCR) Continuous catalyst regeneration process training with universal oil products (UOP). • (FCC) Fluid catalytic cracking process training with universal oil products (UOP). • (ACI) Absorbent Chamber Internals process training with universal oil products (UOP). • Hydro cracking and hydro process training with universal oil products (UOP), • Corrosion monitoring and chemicals training with British petroleum. • CPR and advance first aid training.
<p>Experience Summary</p>	<ul style="list-style-type: none"> • Providing inspection support to all UOP process technology units globally, including, but not limited to, CCR Platforming, FCC, Hydrocracking, Unifining, Penex, NHT, HF Alky, and Parex units. • Providing focused inspection to petroleum refining, oil and gas processing, petrochemical production and major manufacturers worldwide. Primary in turnaround inspection, vendor surveillance of new equipment installations, shop inspections, process unit inspections to customers fixed equipment both internal and external.

	<ul style="list-style-type: none"> • Conduct mechanical equipment / piping inspection in accordance with standards and procedures. • Familiar with maintaining inspection records / quality documents and relevant project documents. • Review, approve and authorize the quality / inspection / NDT documents. • Review job specifications and drawings, Track weld progress, Pipe weld inspection, Pipe installation inspection per applicable industrial standards. • Participate in coordination meetings with owner and contractor. • Review ASME code requirements and UOP Specifications.
--	--

2011 Experience log.

Unit Service	Inspection Type	Dates
(CCR) Continues Catalytic Regeneration	Visual mechanical integrity) Reactor upset	March
MSCCU	Feed Distribution (Shop / quality control)	May
(FCC) Fluid catalytic cracking Reactor stripper	supervising (Quality control and integrity) packing installation process	July
Hydro process Reactor	Visual mechanical integrity / dimensional) tray installation process	September
Hydro process	silencer (Shop / quality control)	October
(CCR) Continues catalytic Regeneration	Visual mechanical integrity...plan shut down	October
Hydroprocessing reactor internals	(quality control /quality assurance activities during fabrication of trays	November

2012 Inspector Experience log.

Unit Service	Inspection Type	Dates
(FCC) Fluid catalytic cracking Process	Visual mechanical integrity...plan shut down	January
(ACI) Absorbent Chamber Internals	Shop (quality control /quality assurance	February
(CCR) continues catalytic regeneration	Visual mechanical integrity...plan shut down	March

(HRI)Hydroproces internals trays and (ACI) Absorbent chamber internals	Fabrication Shop (quality control /quality assurance	May / June
(CCR) continues catalytic regeneration	Visual mechanical integrity...plan shut down	September
Naphtha Process	Visual mechanical integrity...plan shut down	October
(CCR) continues catalytic regeneration unit and ISOM unit	Visual mechanical integrity...plan shut down	November

2013 Inspector Experience log.

Unit Service	Inspection Type	Dates
(FCC) Fluid catalytic cracking Process	Visual mechanical integrity...plan shut down	January
Oleflex process Reactor	Fabrication Shop (quality control /quality assurance	March
Hydrogen Process	Visual mechanical integrity...plan shut down	April
(CCR) continues catalytic regeneration	Visual mechanical integrity...plan shut down	July

2014 Inspector Experience log.

Unit Service	Inspection Type	Dates
crude unit, Globator	Visual mechanical integrity...plan shut down	February
Hydroprocess / hydrocracker / CCR Continues catalytic regeneration	Visual mechanical integrity...plan shut down	March
(CCR) Continues catalytic regeneration	Visual mechanical integrity...plan shut down	June
CCR) Continues catalytic regeneration	Visual mechanical integrity...plan shut down	October

2015 Inspector Experience log.

Unit Service	Inspection Type	Dates
(CCR) Continues catalytic regeneration	Visual mechanical integrity...plan shut down	February
Unicracker	Visual mechanical integrity Absorbent chamber internals	March

(HRI)Hydroproces (ACI) Absorbent chamber	Fabrication Shop (quality control /quality assurance	May
cooker / crude	Visual mechanical integrity...plan shut down	September
Continues catalytic regeneration	Visual mechanical integrity...plan shut down	November

2016 Inspector Experience log.

Unit Service	Inspection Type	Dates
Continues catalytic regeneration	Visual mechanical integrity...plan shut down	February
Aromatics I	Visual mechanical integrity...plan shut down	March
ALKY and cooker	Visual mechanical integrity...plan shut down	May
Continues catalytic regeneration	Visual mechanical integrity...plan shut down	August

2017 Inspector Experience log.

Unit Service	Inspection Type	Dates
Continues catalytic regeneration	Visual mechanical integrity...plan shut down	January
Semi Regenerator (Tray revamp project)	meeting / visual on trays	March
Semi Regenerator (Tray revamp project)	Visual mechanical integrity...plan shut down trays installation	April
CCR Aromatics 2	Visual mechanical integrity...plan shut down	May / June

2018 Inspector Experience log.

Unit Service	Inspection Type	Dates
crude unit	Visual mechanical integrity...plan shut down	February
Hydroprocess / hydrocracker / CCR Continues catalytic regeneration	Visual mechanical integrity...plan shut down	March
(CCR) Continues catalytic regeneration	Visual mechanical integrity...plan shut down	June
Continues catalytic regeneration	Visual mechanical integrity...plan shut down	August

2019 Inspector Experience log.

Unit Service	Inspection Type	Dates
(CCR) Continues catalytic regeneration	Visual mechanical integrity...plan shut down	February
Hydroprocess / hydrocracker / CCR Continues catalytic regeneration	Visual mechanical integrity...plan shut down	April / May
(FCC) Fluid catalytic cracking Process	Visual mechanical integrity...plan shut down	September
(CCR) Continues catalytic regeneration	Visual mechanical integrity...plan shut down	October
(FCC) Fluid catalytic cracking Process	Visual mechanical integrity...plan shut down	November.

2020 Inspector Experience log.

Unit Service	Inspection Type	Dates
Continues catalytic regeneration	Visual mechanical integrity...plan shut down	February
(FCC) Fluid catalytic cracking Process	Visual mechanical integrity...plan shut down	March
(CCR) Continues catalytic regeneration	Visual mechanical integrity...plan shut down	May / June
(FCC) Fluid catalytic cracking Process	Visual mechanical integrity...plan shut down	August / September

2021 Inspector Experience log.

Unit Service	Inspection Type	Dates
(FCC) Fluid catalytic cracking Process	(FCC) Fluid catalytic cracking Process	January / February
(CCR) Continues catalytic regeneration	Visual mechanical integrity...plan shut down	September
Hydrocracking Unit	Tray installation supervision	Oct, Nov, December
RFCC	Visual inspection	December

2022 Inspector Experience log.

Unit Service	Inspection Type	Dates
Crude 11, 12 Naphtha Hydrotreater, 14 Kerosene Hydrotreater	Visual mechanical integrity...plan shut down	January / February
(FCC) Fluid catalytic cracking Process	Visual mechanical integrity...plan shut down	March
(FCC) Fluid catalytic cracking Process	Visual mechanical integrity...plan shut down	March / April
Hydrocracking Unit	Tray installation supervision	May/ June
Ecofining Unit	Reactor Internals Installation	August / September
(CCR) Continues catalytic regeneration	Visual mechanical integrity...plan shut down	October
(CCR) Continues catalytic regeneration	Visual mechanical integrity...plan shut down	November
