### EXPERIENCE SUMMARY:

I have 27 years of global experience with 13 years working for UOP – Honeywell international.

---

Providing technology focused inspection to petroleum refining, oil and gas processing, petrochemical production and major manufacturer worldwide primary in turnaround inspection, vendor surveillance of new equipment installation, shop inspection, offshore, process unit inspection to customers fixed equipment both internal and external for reliability and optimal operation supporting process units operating profitably ,reliability and safely with expertise in completing the transfer of technology to support inspection and technical back up and review operations for optimal process and performance, utilizing inspection standards, API, ASME codes and standard respectively.

---

I am highly skilled both depth and breadth of inspection knowledge in the refining and petrochemicals industrial that combine deep knowledge of specific process technologies with expert general knowledge of the overall refining industry and the interactions between different technologies within the facility.

---

I have extensive global experiences traveling around the world with HONEYWELL / UOP as Field Advisor – Senior Mechanical integrity Inspector specialist for the past twelve (13) years.

---

I have completed over 76 major projects in the following countries include and not limited to; Mexico, Portugal, Italy, France, Sicily, Indonesia, South Korea, Japan, Germany, Netherlands, Canada, St. John, Belarus, Brazil, Saudi Arabia, Nigeria, Singapore , Russia (western Siberia ), China, Egypt, Libya, Israel , Pakistan , Dubai ,Argentina ,Ecuador, Trinidad and Tobago, Chad, Cameroon, Qatar , Angola, Equatorial Guinea ,Congo. Hungary, Százhalombatta. Belgium, Bahrain, Romanian.

United States (Houston, Dallas, Minnesota, Tulsa Oklahoma, California, San Francisco, warren Pennsylvanian, Detroit Michigan, Ohio, Kentucky, Louisiana.

A highly trained, trustworthy and organizational development individual with comprehensive skills in advanced training in the technology of mechanical / Reliability equipment integrity with Honeywell – UOP.

Dedicated and organized individual achieving a reputation for consistently safely going beyond what is required.

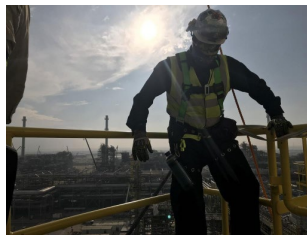

---

Excellent interpersonal and communications skills, confident and poised in interactions with individuals at all levels readily developing report with clients and management.

---

Detail orientated and resourceful in the completion of projects with an ability to multitask effectively and work in a fast paced environment meeting strict deadlines. Exceptional follow through abilities with progressively responsible duties resulting from exceptional performance and a strong commitment with highly regarded for a proactive attitude and an ability to think laterally, providing ideas and solutions when needed.

---

Prince Godwill D. Fomusoh  
11901 Nebula, CT Bakersfeild , Ca 93312 USA.  
[godwillfomusoh@gmail.com](mailto:godwillfomusoh@gmail.com) Cell:661 387 5239

#### CERTIFICATIONS:

American petroleum institute, API pressure vessel (510) / piping (570).

Master training course in quality control / quality management.

Certified to ASNT/SNT – TC-1A – Level II – Liquid Penetrant, Magnetic Particle, Ultrasonic Thickness and shear wave.

Certified to OSHA (40 Hours) and forklift Operation Safety in accordance with OSHA (title 8) group GESFOR Canada.

Six sigma green belt with UOP Honeywell.

Holder of a transportation workers identification card (TWIC) Card.

Bravo Award, Bronze for productivity FCFC#2 (Japan – Osaka).

#### EDUCATION / TECHNICAL PROCESS TRAINING:

Graduate from National Polytechnic College of Oceanering and Engineering Wilmington California.

High school diploma, thelincolnhighschool.

Associate Degree in Under Water Marine Technology and Non-Destructive Testing.

Under Water Inspection / Commercial Diving (ADCI) training.

General Certificate of Education/Advanced Level/Facility Mechanical Integrity training Cameroon - west Africa

Industrial Engineer Training. Cameroon.

(CCR) Continues catalyst regeneration process training with universal oil products (UOP-HONEYWELL).

(FCC) Fluid catalytic cracking process training with universal oil products (UOP – HONEYWELL).

(ACI) Absorbent chamber internals process training with universal oil products (UOP-HONEYWELL).

(HRI) Hydro cracking and hydro process training with universal oil products (UOP-HONEYWELL).

ALKY AND COOKER Training with universal oil products (UOP-HONEYWELL).

Corrosion monitoring and chemicals training with BP North slope Alaska.

Off shore / water survival and helicopter training Gulf of Mexico.

Defensive driving training, Chad / Cameroon pipeline project , west Africa.

Spill Responds contingency Plan / Oil spill prevention regulation training for Oil –Handling personal (Bp Alaska-Prince William Sound North Slope).

Well underground injection control (UIC) Training (Bp Alaska- Prince William Sound North Slope).

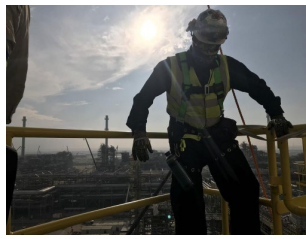

The driving safety awareness program (Bp Alaska- Prince William Sound North Slope).

Abnormal Operation Condition training (Bp Alaska- Prince William Sound North Slope).

Storm weather prevention plan (Bp Alaska- Prince William Sound North Slope).

Managing Accumulation Areas Training (Bp Alaska- Prince William Sound North Slope).

CPR and advance first training. Asbestos training in occupational safety council of America.

**CAREER OBJECTIVE:**

American petroleum institute, API (653) Tank inspection certifications, Certified welding inspector, certification, Foreign Language training Rosetta stone

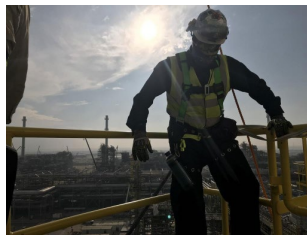

Successfully completed over 76 projects as a Global field Advisor- Senior mechanical inspector specialist field service engineer. **UOP-HONEYWELL.**

Summary of global projects / USA:			
1	<i>Country / location</i>	<i>Customer</i>	<i>Process unit</i>
2	(USA) Illinois	Marathon oil refinery, Robinson Illinois	continues catalytic regeneration
3	(USA)Tulsa, Oklahoma	Hughes Anderson	(shop inspection) Feed Distribution for the MSCCU
4	Japan, Chiba	Idemitsu Kosan,	Fluid catalytic cracking reactor stripper packing installation process.
5	(USA), McPherson, Kansas	NCRA,	Hydro process reactor tray installation process
6	(USA), Cisco Eastland, Taxes	Valero Memphis, Tennessee	FCCU silencer
	(USA), Lake Charles, Louisiana	Conoco Phillips	Continues Catalytic Regeneration
7	Japan, Osaka, Nagaoka international cooperation (shop)	GASCO – Abu Dhabi Gas Industries Ltd	Trays (HRI) internals Fabrication.
8	(USA), Martinez, California	Tesoro Martinez,	(FCC) Fluid catalytic cracking Process
9	Osaka, Japan, Nagaoka international cooperation (shop)	Formosa Chemicals & Fiber Corp, Taiwan Shino Chem Quanzhou petrochemical Co ,LTD	fabrication of (HRI) trays and (ACI) Absorbent chamber inter
10	Minnesota (USA)	Flint hills Resources Minneapolis	(CCR) continues catalytic regeneration
11	Minnesota (USA), New Brighton,	Johnson screens (shop) (Arabian Industrial Fibers Co YanBu) Saudi Arabia	fabrication of (ACI) Absorbent chamber internals

 11901 Nebula, CT Bakersfeild , Ca 93312 USA.  
[godwillfomusoh@gmail.com](mailto:godwillfomusoh@gmail.com) Cell:661 387 5239

12	Multan Punjab, Republic of Pakistan	Pac Arab Refinery limited (Parco)	Continues Catalytic Regeneration
13	Chicago, Illinois (USA)	UOP McCook	Naphtha Process
14	(Trinidad and Tobago.)	Petrotrin, Point –A- Pierre	(CCR) continues catalytic regeneration unit and ISOM
15	EL Segundo, California (USA	Chevron EL Segundo	(FCC) Fluid catalytic cracking Process
16	Osaka, Japan	Nagaoka international cooperation (Shop), China.	Oleflex process Reactor for Zhejiang Satellite Energy Co Ltd,
17	Martinez California (USA),	Tesoro Martinez,	Hydrogen Process
18	Egypt Alexandria	ANRPC Refinery	Continues Catalytic Regeneration
19	Tempico Mexico	Pemex Refinery	(CCR) continues catalytic regeneration
20	(Trinidad and Tobago.) Point –A-Pierre	Petrotrin,	crude unit, Globator
21	Quebec Canada	Valero– Jean Guilin Refinery	Hydroprocess / hydrocracker / CCR Continues catalytic regeneration
22	Carson, California	BP	FCCU
23	Vlissengen, the Netherlands	Zeeland refinery total / Luckoil	Continues catalytic regeneration
24	Port Arthur , Texas ,(USA)	Motiva	Continues catalytic regeneration
25	Atacama’s Esmeraldas, Ecuador	Petro Ecuador, Eppetroeaudor	FCC/ MEROX and Crude
26	Balongan, Indonesia	PERTAMINA oil refinery	CCR) Continues catalytic regeneration unit
27	Kansas McPherson USA	NCRA	Unicracker
28	Torrance, California USA	Exxon Mobil	Damage assessment on the SEP. Unit upset.
29	Torrance, California USA	Exxon Mobil	ALKY T/A
30	Santa Marie, CA. USA	SGS NORTH AMER	Pump inspection
31	Italy LECCO (Milan)	COSTERCUTER	Shop inspection
32	Argentina , La plata	YPF	cooker / crude

Prince Godwill D. Fomusoh  
 11901 Nebula, CT Bakersfeild , Ca 93312 USA.  
[godwillfomusoh@gmail.com](mailto:godwillfomusoh@gmail.com) Cell:661 387 5239

33	Atrapen, Belgium	Total	Continues catalytic regeneration
34	HOUSTON, TX USA	Pasadena refinery	FCCU
35	SOUTH KOREA	Hanwha petrochemical	Aromatics I
36	Nigeria, Kaduna	KRPC,	ALKY and cooker
37	Baluchistan ,Pakistan	BYCO petrochemical	Platforming
38	Portugal	Gap petroleum	FCCU
39	PORT AUTHOR, MOUNT BELLEVIEW TX,USA	Motiva	Continues catalytic regeneration
40	Camaseri ,Brazil	Braskem	Semi Regen.
41	South Korea	Hanwah Samsung	Aromatics 2
42	Tobolsk, Russia Siberia	ZapsibNefteKhim.CYBU	New construction.
43	China loaning province	PLPC	Parex training.
44	warren Pennsylvania, USA	United Refining Company	FCCU
45	Quebec City Canada	Énergie Valero Inc	Hydrocracker
46	Haifa, Israel	Bazan Group – Oil Refineries LTD	Hydrocraker
47	Hungary ,Százhalombatta	MOL	Continues catalytic regeneration
48	Saudi Arabia	Sipcam	New construction
49	Detroit ,Michigan USA	Marathon	FCCU
50	Saint John, NB	Irving Oil	Hydrocraker
51	Saudi Arabia , Fadhili	Aramco -gas plant	New construction
52	PRAHOVA ROMANIA	OMV PETROM	FCCU
56	Italy , Sannazzaro	ENI	CCR Plat
57	BAHRAIN ,AWALI	BAHRAIN PETROLEUM CO BSC BAHRAIN REFINERY	FCCU
58	JAPAN ,OSAKA	NATPET	Oleflex internals
59	Germany	MAN Energy Solutions SE Fabrication shop	FCCU
60	Argentina Mendoza	YPF	Crude
61	Minnesota , USA	Flint hills resources	FCCU
62	Belarus , Mozyr	Mozyr Refinery	FCCU
63	Athens, Greece		Hydrocracker
64	Taiwan	PCP	CCR Platforming.

Prince Godwill D. Fomusoh  
 11901 Nebula, CT Bakersfeild , Ca 93312 USA.  
[godwillfomusoh@gmail.com](mailto:godwillfomusoh@gmail.com) Cell:661 387 5239

65	Lake Charles ,LA	Citgo	CCR Platforming.
66	Ohio	Marathon	FCCU installation
67	South Korea	Hanwha petrochemical	Aromatics unit
68	Lagos – Nigeria	Dangote Refinery	FCCU Cat coolers.
69	Lagos – Nigeria	Dangote refinery	CC7 unit cat coolers
70	Qatar - Mesaiced	Qatar Petroleum	Crude & FCC Blocks
71	Wynnewood Oklahoma City	Wynnewood Refinery	FCCU
72	Warren PA	UNITED REFINING CO	FCCU
73	Alexandria- Egypt	MIDOR	Distillate Unionfining Process Unit
74	CHALMETTE	PBF ENERGY – CHALMETTE REINERY	ECOFINING PROCESS UNIT
75	Port Arthur. Texas	Motiva Enterprises	Upflow CCR Platformer
76	Catlettsburg, KY	Marathon Petroleum Corporation	HPCCR Platformer

Other projects

**ACUREN INSPECTION:**

Shutdown T/A Alkylolation unit 2010  
 API 510 / 570

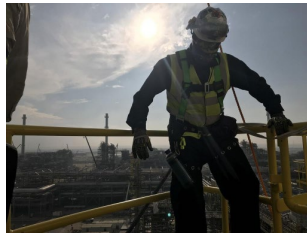

**XTO ENERGY A SUBSIDIARY OF EXXONMOBIL.**

**AMERICAN FIRE AND SAFETY. Position: Senior Project Inspector/Manager (570).**

**COMPANY: MISTRAS / IMPRO TECHNOLOGY- May 2010, Position: Lead Reliability Equipment Inspector  
 API 510 / 510.**

AREA ENERGY LLC, BELRIGE PSM FACILITY,  
 LIQUEFIED NATURAL GAS HANDLING FACILITIES,  
 LIQUID PROPANE GAS STORAGE AND HANDLING FACILITIES,  
 GAS PLANT.

Conduct mechanical equipment / piping inspection in accordance with standard and procedure.

Prince Godwill D. Fomusoh  
11901 Nebula, CT Bakersfeild , Ca 93312 USA.  
[godwillfomusoh@gmail.com](mailto:godwillfomusoh@gmail.com) Cell:661 387 5239

Assure that all the quality requirements and inspections are performed in accordance with the approved Project Quality Plan and / or Inspection Test Plan.

Monitors and stays abreast of the day-to-day work of Contractor and / or inspection services specific to his/her discipline and ensures their qualifications.

Addresses QA/QC requirements associated with equipment and assisting in developing the commissioning plans for the asset.

Assure that all inspection records / quality documents and relevant project documents will be maintained and archived according to the project execution plan (hardcopy and / or electronically).

Discusses quality deficiencies, construction deviations and inspection findings with the Mechanical Lead & Construction Contractor and develops win-win solutions.

Provides discipline specific construction feedback to the Mechanical engineer that can be used in improving subsequent Contracts and/or improve product quality.

Review, approve and authorize the quality / inspection / NDT documents.

**EXXONMOBIL REFINERY TORRANCE, CA - April 2010 ,Position: Mechanical Integrity Inspector API (510/570).**

MISTRAS QLS at ExxonMobil Torrance, CA during the 2010 ALKY H F shutdown. Performing Piping and pressure vessel/exchanges internal and external inspection

**BP CARSON REFINERY LOS ANGELES, CA - January 2010, Position: Mechanical Integrity Inspector API (510/570).**

MISTRAS QLS representing BPCS during the first quarter 2010 N0 2 Coker shut down. Overseeing and inspecting equipments, piping modifications and repairs.

Actively participate in an effective safety program.

Act as liaison with client management, inspection and engineering in respect to all quality issues.

Maintains a daily log to permanently record all significant project facts, events, conditions, delays.

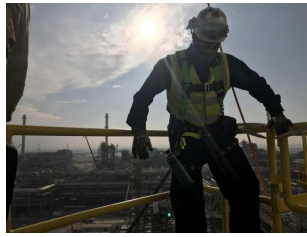

Drawings and calculations on various towers, drums, and exchangers. Witnessed that all datum's were being properly assessed for the correct measurements

Oversee all the NDT that was performed were adequate per specifications manual.

Tracked all welders to ensure they had proper documents to commence work in the refinery

**NORTH SLOPE PRUDHOE BAY, ALASKA FOR BPXA - APRIL 2009 ,Position: Corrosion Chemicals / Fixed Equipment Inspector (510/570).**

MISTRAS QLS, cross country Pipeline Trans Alaska Pipeline performing Corrosion Mitigation Program, lay out for future piping internal and external inspections, pump stations, skip , Drill Site , Drilling Pad, Flow Lines and Flow station.

Prince Godwill D. Fomusoh  
11901 Nebula, CT Bakersfeild , Ca 93312 USA.  
[godwillfomusoh@gmail.com](mailto:godwillfomusoh@gmail.com) Cell:661 387 5239

**BP CARSON REFINERY LOS ANGELES, CA March 2009, Position: Fixed Equipment Inspector -(510/570).**  
CONAM # 1 Reformer shut down.

Performing internal and external inspections on pressure vessel, drums, reactor and all associated component.  
Monitoring all repair works and Piping modifications and installation.

**BP CARSON REFINERY LOS ANGELES, CA -2008 – 2009 JACOBS ENGINEERING GROUP , Position:  
QA/QC Supervisor II**

Review job specifications and drawings, Track weld progress, Pipe weld inspection, Pipe installation inspection per ASME B31.3

Schedule and monitor radiography / other NDT inspections and post weld heat treating services. Participate in coordination meetings with owner contractor, Review ASME code requirements,

Witnessed hydro's walked down drawings to ensure all field welds, piping dimensions,

Piping components, all NDT reports and proper procedures are being followed per BP construction procedure specifications.

Walked down piping packages (Isometric Drawings) and field equipment packages to ensure Correspondence between P&I.D's, ,field equipment, spec breaks, materials, and all additions are accurate. Red line all construction isometric Dwg for any revision prior to hydro testing.

Weld Mapping & Tracking field piping changes, Interface with general contractor and / owner representative.

Assure field supervisions awareness of all QA/QC requirements

**BP CARSON REFINERY LOS ANGELES CA -2006 - 2008**

**CONAM INSPECTION AND ENGINEERING. Position: API Inspector.**

Assessment and Repairs of cooling tower no. 15, 10 and 12 as an API Inspector.

Performed inspection activities during their (FCC) Fluid catalytic cracking Process unit, plan turn around.

Construction of 1105 project (Precipitator) with a Zero Incident record.

Lolie project (Installation of nozzle, reinforcement and modification of drums)

Flare gas project (installation of new knock out drums for the flares)

**CONOCCO PHILLIPS – 2008 , Position: Mechanical Integrity (API 510) QA/QC 3<sup>rd</sup> Party Supervisor Coker  
4<sup>th</sup> Quarter T/A.**

Strategic projects / Coker deheading projects (modification of all four Coke Drums) Installation of Delta Valves

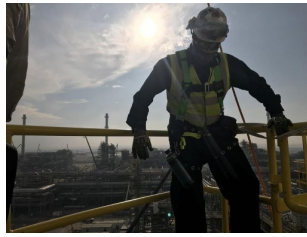

Witnessed that all procedures were properly followed as per CONOCO PHILIPS procedural manual

Act as liaison with client management, inspection and engineering in respect to all quality issues.

External visual inspection on equipment and piping for the coker unit.

Conduct internal and external pressure vessel inspection as per API and ASME Code

Prince Godwill D. Fomusoh  
11901 Nebula, CT Bakersfeild , Ca 93312 USA.  
[godwillfomusoh@gmail.com](mailto:godwillfomusoh@gmail.com) Cell:661 387 5239

**OCEANEERING INSPECTION OFFSHORE GULF OF MEXICO – June 2006** ,Position: LVL II NDT Examiner

Conducted ultrasonic, magnetic particle, fluorescent dye penetrant, visual weld and positive material identification examinations in both offshore and oil rigs in the Gulf of Mexico to determine if parts and systems meet ASME/API/ code specifications.

Witness positive material identification to determine material type and grade.

Provided training for NDE assistant and Level I personnel.

**CHAD CAMEROON PIPELINE PROJECT HALLIBURTON (KBR)** , Position: QA/Supervisor 2001 - 2004

Perform Quality Assurance assessments at vendor plant, as directed.

Review and monitor quality control programs developed by construction contractors.

Working in close collaboration with the QA/QC Manager performing quality control, visual inspections on all support equipment for the entire pipeline project (pump station and pressure reduction station).

Conducts materials testing and analysis, using tools and equipment and applying technical knowledge

Conduct and document quality audits and inspections to monitor the effectiveness of the project quality plan, make recommendations for appropriate corrective actions

**BOUYGUES OFFSHORE IN THE ATLANTIC OCEAN 1998 -2001**(French based company).

Position: Offshore Inspector ,NDT Examiner

Mobil Oil Incorporation offshore Equatorial Guinea on the Zafiro Producer a floating production storage operating system (FPSO) during the hook up phase 1 and phase 2B Central Africa .

**SAIBOS 230, BOS 300 and WB 82** at the coast of Guinea/West Africa .

**PETROMAR Angola/South Africa** for the account of Texaco Inc. Lombo east offshore Angola and Soyo coastal region.

**BOS CONGO** at Point Noire at the Congo Republic/Central Africa for the account of SHELL PETROLEUM.

**ELF SEREPCA CAMEROON** during the construction of BOUSOURD at the Elf base Cameroon / Central Africa

**SONARA OIL AND GAS REFINERY CAMEROON CENTRAL AFRICA 1996 - 1997.**

Position: NDT Level II Technician

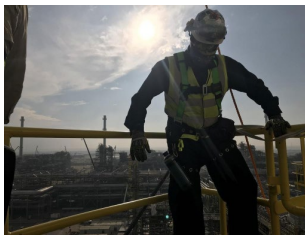

Perform all methods of NDE on Heat exchangers, Towers, Reactors, power piping and drums while working alongside of API 510 inspectors during T/A.

**Computer knowledge and office skills.**

Proficient in Ms-Word, Visio, Ms-Excel, Ms PowerPoint, adobe acrobat, adobe reader, photo shop and some other computer related programs with knowledge of office administration management:

Filing, bookkeeping, data entry, document control, typing and general office tasks support.

Ultra pipe, Meridium , MIMIR Program.
